Re: Debtor: W.R. Grace & Co., et al

Claimant: Skarie, Ronald Alan
Claim #: 6582

To Whom It May Concern:

This is my response to the Notice Of Intent To Object that I received on December 8, 2004. It appears the objection is because of insufficient supporting information on the proof of claim that I filed. I am unsure what other information you may need. Exposed asbestos wrapping was removed by a qualified asbestos abatement professional years before this bankruptcy proceeding began. The asbestos was initially installed before I was born. There is asbestos wrap behind the walls that I am hesitant to disturb at this time. However, I will provide a sample if necessary.

Sincerely,

Ron Skarie

Grace Case No. 01-01139 JFK

Hearing date: NA Responses due: February 7, 2005

Property at 901 East Bates Street SE Tumwater, WA 98501 Claim # 12750 :: 02111594524778

For the above property I cannot get the test results, but have included the bill for covering the popcorn ceiling and the open beams with sheetrock [\$1200.00]. That does not include the cost of sealing and painting the sheetrock which was an additional \$200.00. I have added to this packet copies of emails from one of the persons who remembers the testing and the positive results, but does not have access to the records. And also - now included - are copies of the two property disclosure statements that were made and signed by me when I listed the property for sale on two different occasions (2000 and 2002). You can be damn well sure that I would never have divulged the existence of asbestos had it not been a true fact! (I did not file a claim for the asbestos backed linoleum that we removed on our own prior to knowing it was backed with asbestos.)

Property at 621 East 40th Avenue Spokane, WA 99203-2901 Claim #12751 :: 0211159452779

For the Spokane property, I have added a piece of the asbestos covering or wrap that exists on the furnace ducts. It will cost over \$2800.00 to remove and replace the ducts and I cannot get a new furnace until the asbestos-covered ducts are removed and replaced. To this packet, I have added a clipping of the asbestos wrap. I do not know what further proof you need or want.

.....
I am 69 years old and retired and cannot afford an attorney to help me understand your legalese, and so I am complying with your requests to the best of my ability. I certainly should be entitled to compensation for damages to both pieces of property.

I was not the only person who had owned either property, but am obligated by being the present owner to take care of the asbestos. I was the 5th person to own the property at 901 Bates, but was solely responsible for covering and disclosing it. I could not sell the home without taking care of the ceiling and beam wrap.

I also am the 5th owner of the property at 621 East 40th, and as the present owner, I am also solely responsible for correcting the situation. I need a new furnace and cannot have one installed until the asbestos is taken care of. Not only are the ducts wrapped, but the furnace also has several places with asbestos wrap. Thank you for your consideration of both of these claims.

Respectfully,

Fanette L. Stewart
